

CHARTER SCHOOL AGREEMENT

Pursuant to Utah Code 53A-1a-505, the State Charter School Board (herein after referred to as the Board), grants the Governing Board of Scholar Academy a charter to operate a public charter school (hereinafter referred to as the School).

The Board has reviewed the application submitted by the Governing Board and has approved it, subject to adherence to all requirements set forth in this agreement and in state law and board rule.

1. RECITALS

WHEREAS The People of Utah, through their constitution, have provided that schools and the means of education shall forever be encouraged, and have authorized the legislature to maintain and support a system of free public elementary and secondary schools.

WHEREAS The Utah legislature has authorized a new form of public school designated a public charter school to be created to serve the educational needs of pupils and has provided that pupils attending these schools shall be eligible for support from the Minimum School Program Act.

WHEREAS All public schools are subject to the leadership and general supervision of the State Board of Education.

WHEREAS The legislature has delegated to the Board, governing boards of local education agencies, and board of trustees of a higher education institution the responsibility for authorizing the establishment of public charter schools.

WHEREAS The Board is an authorizing body empowered to voluntarily issue contracts to organize public charter schools.

BE IT RESOLVED, That the following chartering policies are adopted.

- a. Recognizing that public charter school board members are public officials and have primary responsibility for the school's governance and operation, a school's board of directors shall be appropriately constituted according to the law.
- b. To ensure that public charter schools are open and accessible to all interested parties, each school must legally notice and reasonably inform the public of its application period and enrollment procedures consistent with Utah Code and State Board rule.
- c. Believing competitive comparisons and benchmarking information are necessary for raising standards and driving continuous improvement, the charter schools office shall ensure that each Charter School Agreement contains clear, measurable performance standards.
- d. To assess the academic and operational performance of public charter schools, charter schools shall meet the required minimum standards identified, as well as meet all entity determined targets outlined in this agreement. Regular review of the minimum standards and

entity determined targets should serve as an early warning system for governing boards and may be used by the State Charter School Board when evaluating a charter school.

e. Charter Schools may request technical assistance from the Board in any area, including curriculum matters and financial concerns. In no event is the Utah State Office of Education (USOE), the State Board of Education (SBE), or the Board responsible for any financial or technical support other than the funding and technical assistance as expressly required by law. And in no event is the USOE, SBE, or the Board responsible for the outcome of any decisions the school makes based on such assistance.
